## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Figures 1-3, claims 1-16 in Paper No. 5 is acknowledged.
2. Claims 10-13 and 15-16 are directed to an invention that is independent or distinct from the elected species for the following reasons: the bracing extending across the frame or an unframed construction

Since applicant has elected Figures 1-3, claims 10-13 and 15-16 are withdrawn from consideration as being directed to a non-elected invention.

### ***Drawings***

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the one or more filling openings in the door panels as set forth in claim 14 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3637

5. Claims 2-9 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Regarding claims 2 and 7, the phrase "and/or" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "and/or"), thereby rendering the scope of the claim(s) unascertainable.

7. Regarding claims 2-9 and 14, the preamble should read "The mine door leaf...".

***Claim Rejections - 35 USC § 102***

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1-9 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Charles Patent Number 3,334,464.

Charles '464 teaches all the limitations of the above claims including a door (32) with one or more hinges (see Figure 1) with a central core (8) of polyurethane foam bonded (column 3, lines 70-73) to outer panels (4, 6), top (14), bottom (16) and sides (10, 12) form frame with panels secured to frame and openings (34) in side frame (10) for filling with foam. Regarding claims 9 and 14, the MPEP 2113 clearly states that even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself.
